**JON ZIEGLER RECEIVES CxT CREDENTIAL**  
***Certified Commissioning Technician status is conferred on GLHN Mechanical Designer***

Tucson, AZ (December 16, 2009)—GLHN Architects & Engineers, Inc. announced that Jon Ziegler, II, a LEED Accredited Mechanical Designer who also holds the Engineer in Training (EIT) designation, has received Certified Commissioning Technician (CxT) status. Ziegler has been employed by GLHN since 2005.

According to the accrediting organization, AABC Commissioning Group (ACG), a candidate for the three-hour CxT exam must work for an ACG member company under the supervision of a Certified Commissioning Authority, who must endorse the candidacy.

Other prerequisites for CxT certification include a minimum of two years' field testing experience and attendance at an ACG-sponsored workshop or webinar.

GLHN also employs two Certified Commissioning Agents (CxA). These highly qualified individuals are hired by building owners to ensure that mechanical, electrical and architectural building components operate efficiently. In the past five years, the firm has commissioned systems for over \$200 million in construction.
