NEW MEXICO STATE UNIVERSITY SELECTS GLHN
Local A&E firm will provide professional services for \$24 million project

Tucson, AZ (February 26, 2010) — New Mexico State University has selected GLHN Architects & Engineers, Inc. to provide professional services for a \$24 million Campus Chilled Water Utility Improvements project. The project includes the design and construction of a satellite chilled water plant for the university's main campus in Las Cruces and campus-wide chilled water distribution upgrades and extensions. GLHN has worked continuously at NMSU since 1998, when the firm performed its first chilled water study for the university.
