DENISE PAPE JOINS GLHN ARCHITECTS & ENGINEERS
Moeller and Jolly advance at the Tucson firm

Tucson, Arizona (April, 2009)— Denise Pape, P.E., LEED AP has joined GLHN Architects & Engineers as Electrical Engineering Department Manager. The firm has also promoted John Jolly, LC to Chief Electrical Designer.

Ms. Pape moved to Tucson from Denver, CO, where she was an Associate at ME Engineers specializing in sports complexes and large commercial projects. During a distinguished career, she served as the electrical engineer for the new Yankee MLB Stadium in New York City, as well as the Kansas City Chiefs NFL Stadium expansion and remodel. She brings extensive team management and electrical systems design experience for medical centers, educational facilities, high-rise corporate centers, residential assisted living communities, and large-scale building renovations and expansions. Her energetic team approach enhances the firm's project management, LEED design, and technical capabilities.

John Jolly joined GLHN in 2002, bringing over 30 years of electrical lighting and design experience. As Chief Electrical Designer, John will train junior electrical staff, serve as the department's technical spokesman and resource for design and code issues, and perform Quality Control review of electrical documents. John is Past President of the Southern Arizona Chapter of the Illuminating Engineering Society of North America (IESNA), and is an award-winning lighting designer. John has contributed to numerous publications, such as Architectural Lighting, and has also assisted IESNA in developing their lighting design guides and standards.

The new staff assignments follow the recent advancement of Ted Moeller, P.E., CEM, LEED AP to the GLHN Board of Directors and appointment as Vice President and Director of Electrical Engineering. Roger Harwell, P.E. guides the team as Principal in Electrical Engineering.
