UNIVERSITY OF ARIZONA SELECTS GLHN FOR NORTH CAMPUS WORK
Local firm will provide electrical engineering for transformer yard expansion

Tucson, Arizona (May 13, 2010)— The University of Arizona has selected GLHN Architects & Engineers, Inc. to provide electrical engineering services for the Arizona Health Sciences Center (AHSC) Transformer Yard Expansion project. The estimated \$12.5-13.5 million project will increase the capacity of AHSC's electrical utility grid to meet the growing needs of the North Campus area. It is anticipated that construction will be completed in 2012.
